

Fix broken links in Microsoft Office 2003 files with the newest release of *LinkFixerPlus*.

CLEARWATER, FLORIDA, USA — LinkTek Corporation announced today the release of a new version of their *LinkFixerPlus* link maintenance and repair program that provides support for Microsoft Office 2003 files in addition to Office 97, 2000 and XP files.

This latest version of *LinkFixerPlus for Microsoft Office* ensures that embedded links contained within Microsoft Word, Excel and PowerPoint 2003 files are *automatically* maintained whenever linked files are moved or renamed. This newest version of *LinkFixerPlus* is part of LinkTek's continuing series of releases to provide support for an ever-increasing variety of popular file formats.

IT professional who are tasked with moving end-users' Word, Excel and PowerPoint files when conducting data migrations, including server consolidations, server name changes, path name changes or folder reorganizations, must also contend with the problem of ensuring that links contained with these files are not broken as a result of the move.

This is the problem that LinkTek's patent-pending product, *LinkFixerPlus for Microsoft Office* solves. It has been designed so that IT professionals can automate the reporting, management and repair of links in Word, Excel and PowerPoint 97, 2000, XP and 2003 files so they won't have to worry about broken links as a result of files being moved.

LinkFixerPlus is the first software application that can fix broken links *automatically* when files or folders are moved or renamed. Using patent-pending technology, *LinkFixerPlus* helps eliminate the time-consuming and tedious process of manually finding and fixing broken links. Additionally, *LinkFixerPlus* can create a variety of detailed reports showing all of the links contained within files, including broken links.

First introduced at the 2002 *Internet World* convention in New York City, *LinkFixerPlus* won the *Best of Show* award in the design category. Since that time, *LinkFixerPlus* has been favorably mentioned on: Computer America talk radio, CNET radio, CNNfn, PC Magazine, Entrepreneur Magazine, the Washington Post, the New York Times and the Wall Street Journal.
