

# Move or rename AutoCAD 2008 files without causing broken links.

CLEARWATER, FLORIDA, USA — LinkTek Corporation, the world's leading provider of software that automates the reporting, management and repair of links contained within a wide variety of popular file formats, announced today the release of a new version of their *LinkFixerPlus* link maintenance and repair software. The new version of *LinkFixerPlus for AutoCAD* automatically fixes links in AutoCAD 2008 files that point to external files (such as xrefs, images, fonts and other linked files) when AutoCAD files are renamed or moved — for example, when files are renamed due to a project name change or when files are moved to a new folder, disk drive or server.

This newest release adds to *LinkFixerPlus*' previous ability to rename and move AutoCAD R13 through R2007 files, as well as Excel, Access, Word, PowerPoint, HTML, InDesign, PageMaker, Acrobat PDF and Windows shortcut files, without causing broken links.

“*LinkFixerPlus for AutoCAD* is a versatile tool that enables users and IT managers to accurately and automatically maintain xrefs and links contained in AutoCAD files” says contributing editor Patrick Davis of *Cadalyst Magazine*.

First introduced at the 2002 *Internet World* convention in New York City, *LinkFixerPlus* won the Best of Show award in the design category. Since that time, *LinkFixerPlus* has been favorably mentioned in: *Cadalyst Magazine*, *eWeek*, *Redmond*, *Windows IT Pro*, CNET radio, CNNfn, *PC Magazine*, *Entrepreneur Magazine*, *The Washington Post*, *The New York Times*, *Computer World* and *The Wall Street Journal*.

## How To Contact LinkTek

For more information about *LinkFixerPlus*, please visit LinkTek's Web site at <http://www.LinkTek.com>, call 1-727-442-1822 extension 9389, or e-mail [9389@LinkTek.com](mailto:9389@LinkTek.com).

## **About LinkTek**

Headquartered in Clearwater, Florida, LinkTek Corporation provides software solutions for automating the management and repair of links contained within a wide variety of prevalent file formats. LinkTek's flagship product *LinkFixerPlus* breaks new ground and introduces the new software category of "automatic link repair". It is a leading data migration and link repair tool used by some of the world's largest corporations.

*LinkFixerPlus* is the first application designed to automatically fix broken links when files are moved or renamed.
